

## Shopping amount calculation screen using java swing

### Output Screen:

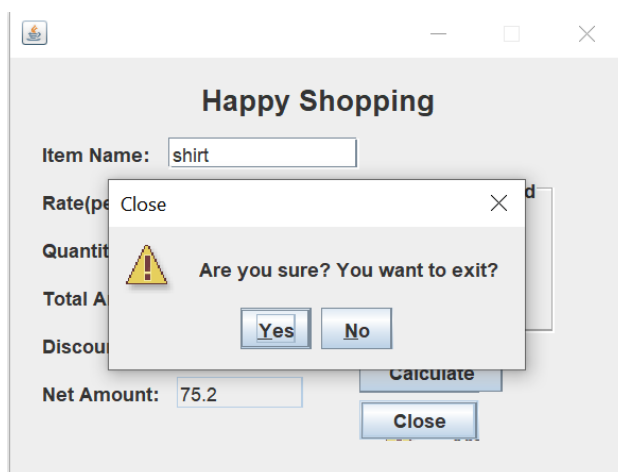

The screenshot shows the 'Happy Shopping' application window. It has a title bar with standard Windows controls. The window contains the following elements:

- Title:** Happy Shopping
- Item Name:** A text input field.
- Rate(per unit):** A text input field.
- Quantity:** A text input field.
- Total Amount:** A text input field.
- Discount:** A text input field.
- Net Amount:** A text input field.
- Membership card:** A group box containing three radio buttons: Platinum, Gold, and Silver.
- Buttons:** 'Calculate' and 'Close' buttons.

The screenshot shows the 'Happy Shopping' application window with the following data entered:

- Item Name:** shirt
- Rate(per unit):** 40
- Quantity:** 2
- Total Amount:** 80.0
- Discount:** 4.8
- Net Amount:** 75.2
- Membership card:** Gold (selected)

The screenshot shows the 'Happy Shopping' application window with a confirmation dialog box overlaid. The dialog box has a yellow warning icon and the text: "Are you sure? You want to exit?". It has 'Yes' and 'No' buttons. The background window shows the same data as the previous screenshot.
